

AFFORDABLE STRUCTURES MEDICAL BUILDING SOLUTIONS

ACCELERATED CONSTRUCTION PROVIDES ALTERNATIVE TO STICK-BUILT CONSTRUCTION

PROJECT PROFILE

- ❖ **Palm Coast Medical Center**
- ❖ **Cocoa Beach , Florida**
- ❖ **6,000 Square Feet**
- ❖ **Designed and built to project a permanent appearance with accelerated construction**
- ❖ **Building contains exam rooms, laboratory, x-ray suite, administrative offices and reception area.**

352-742-7488
813-630-4222

CHALLENGE

Palm Coast wanted a building that complemented the architecture of the surrounding community and needed much faster than was possible with conventional construction. The project also had to meet the demanding requirements of the local building department and meet the severe coastal wind criteria.

SOLUTION

Through standardized manufacturing and construction processes, the design-build company achieved the development of a single-story permanent, relocatable building at substantial savings over conventional construction. The building is relocatable for future applications and meet all expectations for quality and attractiveness.

FEATURING

- **STUCCO EXTERIOR**
- **BARREL TILE ROOF LINE WITH CONCEALED GUTTERS**
- **PERMANENT FOUNDATION WITH CRAWL SPACE**
- **TINTED WINDOWS AND STORE-FRONT DOORS**
- **CENTRAL HEATING, VENTILATION AND AIR-CONDITIONING**
