- ❖ Building includes seven classroom areas with restrooms, staff lounge, counseling area, science lab and general administrative support areas

"If your organization should be in the market to expand your business, calling Affordable Structures may be one of the best decisions you could make."

Business Manager

CHALLENGE

The Diocese of St. Petersburg was faced with replacing old dilapidated buildings that had significant air quality concerns and general safety issues. They also had a very tight timeline to develop the site, permit the building and gain Occupancy for the upcoming school year.

SOLUTION

Affordable Structures worked closely with the Architect of the Diocese, the Principal of the school and local engineers to design and build a building that met all of the clients requirements for aesthetics and quality for the new facility. The end result was a great building for their educational needs and administrative functions that was within their budget constraints!

FEATURING

- HI-RIBB ALUMINUM EXTERIOR
- DECORATIVE MANSARD WITH 12" OVERHANG
- SOUND BATT INSULATION WITH FIRE RATED DOORS
- TURN-KEY GENERAL CONTRACTING SERVICES
- SITE BUILT PRESSURE TREATED DECKS AND RAMPS
