

AFFORDABLE STRUCTURES EDUCATIONAL BUILDING SOLUTIONS

PERMANENT MODULAR BUILDING GETS A+ FOR QUALITY AND AFFORDABILITY

PROJECT PROFILE

- ❖ First Baptist Central Florida
- ❖ Ocoee, Florida
- ❖ 18,364 Square Feet
- ❖ Designed and built to match the aesthetics of the existing church
- ❖ Building includes classrooms, choir room, teachers' lounge and offices

877-739-9120

CHALLENGE

First Baptist of Central Florida needed a new educational facility to accommodate rapidly increasing student enrollment. The building committee considered both stick-built and modular for time and cost considerations. The building had to be ready for occupancy prior to the start of school and had to match the look and functionality of the existing church.

SOLUTION

Affordable Structures worked closely with the building committee, pastor and educational staff to design a building that met all of their expectations and came in ahead of schedule. The result was a beautiful permanent educational complex that met all of their needs.

FEATURING

- STUCCO EXTERIOR WITH DECORATIVE MANSARD
- PERMANENT FOUNDATION WITH CRAWL SPACE
- ROOF MOUNT PACKAGE HVAC SYSTEM
- FULL FIRE SUPPRESSION AND ALARM
- DOUBLE INSULATED GLASS WINDOWS WITH BRONZE FRAME AND TINTED GLASS
