

AFFORDABLE STRUCTURES MEDICAL IMAGING SOLUTIONS

MODULAR BUILDING PROVIDES COST EFFECTIVE OPTION TO STICK-BUILT CONSTRUCTION

PROJECT PROFILE

- ❖ Cobb County Imaging Center
- ❖ Atlanta, Georgia
- ❖ 4,102 Square Feet
- ❖ Designed and built to match the architecture of the existing facility
- ❖ Building includes Radiology / Fluoroscopy Suite, PET Suite, MRI Suite, control rooms, patient waiting, changing areas and restrooms

CHALLENGE

Cobb County Medical needed a facility to accommodate the latest imaging systems technology. The building had to match the exterior aesthetics of the existing building and meet stringent requirements for quality, speed and cost effectiveness.

SOLUTION

Affordable Structures worked closely with the medical staff, the facilities department, plant engineering and the medical equipment manufacturers to design and rapidly construct a building that met all of their requirements. The result was a beautiful permanent medical imaging structure that matched their existing building perfectly.
